

The ASPRA-XS stand alone

The ASPRA XS is a compact and silent edition of the ASPRA series. As a result of minimal sound production, the XS is very suitable for air cleaning in public buildings since it does not disturb conversations during work, learning or relaxation.

The XS is the ideal air cleaner at the office, schools, smoking cabins, hairdressers, sport centers, catering and elderly homes. The XS offers fast and easy compliance to health and safety legislation with regard to particulate matter and other contaminants.

The XS provides healthy, clean and convenient indoor air quality. Users of the XS praise the fact that the XS is silent, compact and it results in considerably better working conditions.

Whether you are in need of a solution against chemicals, Particulate Matter, smoke, odors, pollen or fungus, our specialists always provide you with the most suitable edition of the XS.

Furthermore, the XS can be installed in a room on a stand, attached to the wall, against the ceiling or above the ceiling.

Benefits :

- Silent Mobile
- Low cost of ownership
- Energy efficient
- Installation against wall, above ceiling or on the floor
- Very flexible through optional attachments; extra filters (high efficiency, active carbon etc.) and expansion pieces
