

The ASPRA-MED stand alone

For air cleaning in medical environments and other environments in which optimal hygiene, comfort and safety are important, we offer you our ASPRA Med.

Highly effective

The ASPRA MED has the highest air cleaning efficiency in the ASPRA series. The MED has H11 filter efficiency. Even the finest particles such as Ultra-fine Particulate Matter and microbes are effectively filtered out, get electrified and safely stored in the specially designed dirt collector. The ASPRA Med provides protection of patients against air borne infections, micro organisms and fine Particulate Matter (e.g. during renovations, or when situated near/in city center or highways). Odors and smells from medicine, cleaning materials and urine are also effectively reduced.

The ASPRA MED is incredibly versatile

- Very high air cleaning efficiency
- Silent
- Mobile
- Scalable
- Energy efficient
- Low cost of ownership
- Installation against wall, ceiling, above ceiling or on ground
- Ideal air cleaner for hospitals, dentists, pharmacies, nursing homes and elderly homes.
